

Business Card Printing Artwork Guidelines

High quality printing needs high quality artwork. Here is our guide to ensuring that your cards print well all the time

- 1 Ensure that the logo in your card is in **VECTOR** format
- 2 Add a **3mm** bleed to your artwork
- 3 Ensure you leave a 0.5 cm margin between your content and the card edges
- 4 Save your final card design as a high quality **print PDF** file with trim and **bleed** margins indicated.
